Kindergarten News

In the month of November Mrs. Gardener's kindergarten class is studying insects, butterflies, and they read The Very Hungry Caterpillar. In Bible they're learning about Joseph. They're not really involved in any art projects; but what they do enjoy is center time, they're new and exciting every week! This month they'll be learning about Thanksgiving and doing Thanksgiving projects. Also, through this month and the next, because of the cold weather they'll be learning new games and taking turns in the classroom also in the gym. A couple of highlights from the past month, is their trip to the fire station to learn about fire safety. They also did a few fall art projects. A few special would be Kirsten and Kyra, they're already reading! Also D.J. is very talented in art. They're all special.

First Grade News

Mrs. Carillo's class will be doing a lot of things this month. They will be writing letters to the kids in Argentina. They aren't sure that the kids will write back, but it will be fun anyway. They are also going to make a turkey centerpiece

In math they are studying nickels and dimes and how to use them. In Bible they were studying Isaac and Rebekah. And how Isaac went out to get Rebecca and bring her back home with him. A few days after they were done studying that a girl named Rebekah came into their class. She came all the way from Georgia. Mrs. Carillo thought it was neat that she came in when they were studying that.

Miss Brandt's News

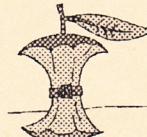

Miss Brandt's 1st grade class has been learning to count money, and count by 1's, 5's, and 10's in Math. Every week they have a spelling test with different words. The highlights of this past month for her class were their two field trips, and the seventh grade reading to them.

They have been working on being more thankful for things they have, and they are learning more about pilgrims.

Her plan for next month are a food and toy drive for the Open Door Mission. They are also going to do some projects for Christmas

Some good news is that one of her student's (Johanna Olsen), mother had twins, and Shaw Fleming's mother had a baby. So those are two things to praise God about. So that's all for Miss Brandt's 1st grade news.

Mrs. Huntoon's News

Mrs. Huntoon has a wonderful class this year. The kids like to do art and like to draw. They also are good at Bible memorization. The class is studying Pilgrims, Thanksgiving, Native Americans, and borrowing and carrying for subtraction in math. They have been making thankful chains and are going to make stone soup later this month. For a field trip the class is going to the Sarpy County Museum. Next month they are going to learn about Christmas Around the World and have an oral presentation about family traditions. For Christmas Around the World they are going to the Western Heritage Museum to see all the Christmas trees decorated by different countries. The class is very excited about Christmas and has a very fun month planned.

3rd Grade News

So far this year has been very exciting for the 3rd grade. For Thanksgiving they have a turkey project that they are doing. They are also learning the "Fruits of the Spirit."

Their first field trip was visiting the fire station to see how the firemen got ready. They also got to see the big red and yellow fire trucks. They have

also been to the Amelia Bedelia play and the Bellevue Public Library. The 3rd grade's upcoming event is a party on Friday, November 12th where they will have lots of fun.

Fourth Grade News

As you all probably know already Miss Goertzen was in a car accident and broke her leg. She will not be able to use her leg for quite sometime, so Mrs. Callahan was filling in for her. They have moved the fourth grade room down to the music room, so that it is easier for Miss Goertzen to get to her classroom. Mrs. Callahan has picked up where Miss Goertzen left off. In history they are working on the Great Awakening. In science they have started to study birds. In Bible they have finished studying Moses and are now starting to study Joshua. In math they have started dividing and learning about fractions. They just went to the library and are starting to read Golden Sower books; they are enjoying the book they are reading now. If the fourth graders behave themselves all week long and fill up their marble jar with marbles they will get a party at the end of the week. One of the weeks in November they will get a bubblegum party. That is what the fourth graders look forward to throughout the long week!

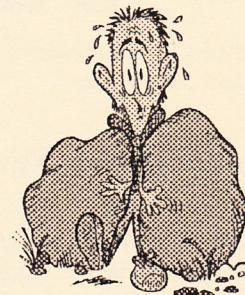

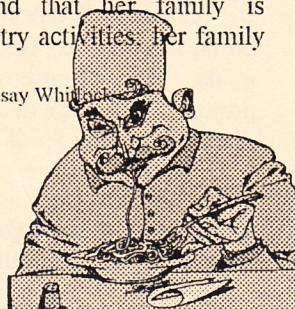

Carolyn Kruger

5th Grade News

Mrs. Hayes's class has been very busy. They have been studying Ancient India. Some highlights of this last month have been a Middle Eastern feast and an Ancient Indian celebration. Some upcoming projects for next month are a Thanksgiving feast. Mrs. Hayes wants to recognize that Radiance Dotzler comes from a very loving family, and that her family is involved in a lot of ministry activities. Her family loves the Lord.

The 6th Grade News

The 6th grade class has been very busy and is studying geology and Canada; nice combination don't you think? Later this month they will be having a "Canadian feast"; groups of kids will get together and make a Canadian food and bring some to share with the class. In geology they will be doing various projects including mining in a cup-cake. They have already made fudge to demonstrate intrusive and extrusive rock. Mrs. Linnell, with the help of Anna, the Commissioner of Journalism, is trying to get the 6th graders "involved" with the school newspaper (Judah's Journal).

7th Grade News

I asked the 7th grade teacher a few questions like, what new things are you studying? She said, "We're going to study Rome for history. We're also going to study about fables". I also asked her what the highlights of this past month are. She said they studied Greece and had a Greek feast. I asked her if there was any interesting projects this month? She said that they're involved in prayer walks every Wednesday and they're also going to read to Miss Brandt's class once a week. I also asked her what her plans were for next month. She said, "We're going to study about Christ's birth." Then I got to the last question. I asked if there was anything about her students that her readers would want to read about? She said, "A lot of my students are going out to town for Thanksgiving and we're all looking forward to holiday breaks."

AMY LANPHIER

I was talking to one of our fifth grade students here at BCA. Her name is Amy Elizabeth Lanphier. Amy enjoys collecting Beanie Babies and stickers. Her favorite sport is soccer. She doesn't play soccer, but she does take dance lessons. We asked Amy to finish this sentence: "Behind my back I hope people would say 'something good about me.'" Amy's favorite memory was when she was in kindergarten and did a "Little Red Hen" play. One of her most embarrassing moments was when she walked into the boys' bathroom by accident. Amy is a wonderful student.

A SIXTH GRADER

One of our sixth grade students at BCA is Timothy John Kruger II. Tim's birthday is April 18th. A couple of his favorite things to do are biking, football, baseball.....the usual boy sports. Out of all those sports his favorite is basketball. When asked to finish this sentence he said, "I hope people would say, 'nothing behind my back.'" His favorite memory of school is when he got hit in the head with a football. His most embarrassing moment is when he was playing basketball. He had scored his 7th or 8th point, turned around, tripped over his shoe, and fell on his face. We asked him what he thought of school and he said, "School is ok."

SPORTS

*The volleyball girls finished strong, bold, and demanding
that's what made our BCA girls so outstanding.*

*They finished with a loss, but that's ok
Because the BCA girls played hard all the way.
Basketball is here,
So get ready to cheer.*

*We need your support, so don't delay
Come to BCA and sign up for basketball today.*

*We need the practice and the skill
So come on kids start doing those drills.
We need to parents to support we need them to
fight,*

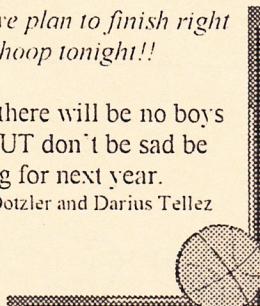

*Come on all your parents come cheer tonight!!
We're finally at the end and what I'm trying to
say,*

*Come on all you kinds sign up for basketball
TODAY!!!*

*PS We plan to finish strong we plan to finish right
so come on BCA let's hoop tonight!!*

*PSS we have just found out there will be no boys
or girls basketball team. BUT don't be sad be
glad and start practicing for next year.*

RICHARD

I was talking to Richard Henry, one of the students here at BCA about his life. Richard's favorite sport is soccer, his favorite hobby is also soccer. Richard wants people behind his back to say he's nice. Richard's best memory of school is the 6th grade retreat. That's Richard Douglas Henry's life for you. So long.

MRS. GARDNER

Mrs. Gardner is our kindergarten teacher. Outside of her class work she likes to read Christian fiction. When I asked her if she participated in sports she said, "No, I don't think so, not since 1920." When asked to finish the sentence, "Behind my back I hope people say, 'they can come to me for help and that I am a fun teacher,'" she said. Her best memory of school was when her seventh grade teacher was so nice and funny; he made her like school. Her grandmother influenced her life the most.

Richard Henry

QUESTION OF THE MONTH
"What are you thankful for?"

"My Family" David Root

"My Horse" Jessica Jordan

"Children and Husband" Mrs. Arrowsmith

"Everything" Travis Kruse

"BCA" Jessica Northern

"Being Healthy" Mrs. Linnell

"My Dog" Ben Hobson

"Me" Nicole Maddox

"Salvation" Mrs. Hayes

Give thanks in all circumstances
1 Thessalonians 5: 18
