## Kindergarten News

Mrs. Gardner's kindergartners have been very busy this month. They are learning new things every day, such as the Arctic and animals that live there. In Bible they are learning about Elisha and in math they are learning about addition. This month they are planning to do a Three Little Pigs play and take a field trip to the Children's Museum.

Have you ever put together a puzzle? It's sometimes confusing, and it takes a lot of hard work. Joshua Marsala and Chris Davis are great at puzzles!

## Miss Brandt's First Grade News

Miss Brandt's class is very busy. They are now starting a new section in science. They will be doing experiments such as crystal making, oobleck, and they are also studying snow.

This last month they have done a worship service that the students put on and had a blast doing it. The students are also writing sentences and turning them into stories. In February they will be starting health and are going to try to get the seventh grade helping out on some art projects. Last but not least they will be doing a cooking project.

Also next month they will have a Valentine's party; Miss Brandt will be trying to get the parents involved in reading and doing some art projects with the students. Some exciting news is that Johanna Olson's mom had twins. Miss Brandt's students favorite subject is reading.

## **Mrs. Carillo's First Grade News**

Mrs. Carillo's students are studying lots of new things. They're reading about different kind of animals and dolphins.

In math the students are being challenged by reading thermometers. They have been involved in interesting things this month. They drew portraits with oil pastels of other students, and they used water colors to paint paintings of Jesus on the cross or the resurrection. In science the first graders watched a snowman grow to one hundred times its size. They also sent bible verses in Spanish to Argentina. They finished writing "chinquapin" a form of poetry. The plans for next month are that they will be going to write "haiku" a form of poetry.

## Second Grade

Mrs. Huntoon is an exciting teacher. She keeps her students very busy. This week the kids are learning how to borrow and subtract in math. In history they are learning about the Antarctica and the arctic. In the second grade there are lots of

### **BIRTHDAYS** this month!

We want to wish them a

### **VERY HAPPY BIRTHDAY!**

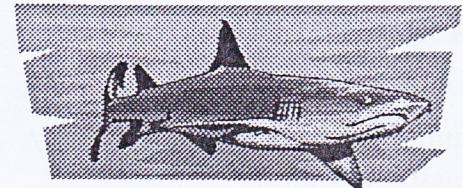

This month Mrs. Huntoon's class is doing a missions project; They are sponsoring a boy in Puerto Rico. I think it is great to give to the less fortunate.

Next month Mrs. Huntoon is planning to be teaching on the rain forest and

about a the animals. Mrs. Huntoon is a great teacher.

Michelle Morehead

Her name is Michelle Anne Morehead. Her hobbies or interests outside of school are playing the piano and writing songs.

Her favorite sport is volleyball which she also participates in. She said, "Behind my back, I hope people would say they see a lot of Jesus in me."

One of her most embarrassing moments is when she came to school with her shirt on backwards.

She is also an outstanding sixth grade student. So that's all for Michelle Morehead.

## Spotlight on Mrs. Carrillo

Mrs. Carrillo is one of our first grade

teachers at Bellevue Christian Academy. I asked her some questions about her hobbies and her interests outside of school. She likes to paint, hike, walk, read the Bible and spend time with her family.

She does not participate in any sport. Mrs. Carrillo said that if any body talks behind her back they would say that she is a follower of Christ. One of her best memories of school was when her fifth grade teacher let her stay after school

and talk into his tape recorder. Later she found out that he was studying to get his Master's

Volume 1, Issue 4  
January

degree, and somehow this was part of his studies. Her friends prayed with her and told her about Jesus. That's who influenced her the most. Mrs. Carrillo received Christ when she was 18 years old.

## Bagelicious

**Amorphous fist-sized blob of dough**

**Baked correctly just so,**

**Garnish with raisins, seeded, salted,**

**Or with onions can't be faulted.**

**But eat it quickly on the fly,**

**Tomorrow it will petrify.**

**Then you will be out of luck,**

**Unless you need a hockey puck.**

**Ben**

Benjamin Andrew Hobson is a fifth grader in BCA middle school. He is interested in basketball and football. His favorite sport is basketball and he likes to play it.

He hopes when people talk behind his back, they would say, he is a great basketball player. His best memory of this school is when we got lost in the woods on one the field trips.

One of the most embarrassing moments was when he was at his brother's basketball game. He dropped the ball and it went down the stairs. Then it hit his brother on the court.

Travis W. Kruse

**Spotlight on Paul**

Paul Parick Lanphier a very enthusiastic kid. Paul's hobbies outside of school are snow boarding, weightlifting, practicing football, and watching movies. His favorite sport is football and he participates in, track, football, and basketball.

Behind his back he hopes people would say "He's a very nice attractive man." Paul's best memory of school is track and field day at Cross Lutheran. Paul's pants fell down at a pool party. Paul's birthday is April 27th. He is thirteen years old. He is our schools vice president, and a wonderful one.
